# OPENING TO JOY

OCTOBER 18 – 21

EANT ANNUAL CONFERENCE 2012

# OPENING TO JOY

**What is your relationship to JOY?** The JOY that rises from within? JOY is inherently within us; and when we open to it, JOY is the song that sings us, no matter our circumstances. **JOY brings us into a larger context than we've arranged for ourselves.** We land in JOY as a result of our "work" with the Enneagram, daily practice, and as a gift from grace — coming to us as divine breath that opens our hearts. **Join us as we explore, as a community, both the barriers and the paths to JOY for each of the nine Enneagram types.** And, the Enneagram of Harmony will be our guide as we experience the expansive capacity of JOY and its plentitude in our lives as we shift from pattern to presence.

## KEYNOTE TARA BRACH

### TRUE REFUGE – THREE GATEWAYS TO PEACE AND FREEDOM

Tara shares, "Joseph Campbell writes that all religions start with the cry, 'Help!' We spend many moments in a trance of separation and deficiency, entangled in strategies for seeking relief. This suffering asks for our deep and compassionate attention. By awakening to the three archetypal domains of presence — TRUTH (of the present moment), LOVE, and AWARENESS — we see beyond our personal patterning to the radiance and freedom of our natural Being."

### HELEN PALMER

**Guided Inner Work – What's Happening Now...**

**HELEN PALMER, DAVID DANIELS, TERRY SARACINO, AND MARION GILBERT**  
**Passages to Joy: The Magic of the Harmony Triads**

Co-founders Helen Palmer and David Daniels along with Terry Saracino and Marion Gilbert will guide our exploration of the “Enneagram of Harmony” as we hear from panels from the Harmony Triads of 1-4-7, then 8-5-2, and 3-6-9. How might we deepen our capacity for joy in working our own unique triangle of types? What new insights might be gained from the 2-5 connection? The 4-7 connection? Helen, David, and Terry will lead panel interviews, with Marion Gilbert offering the somatic piece for each panel.

### RENEE ROSARIO – Cultivating the Heart

Through the science of the heart and experiential practices, we will explore how to intentionally strengthen access to positive qualities we desire to manifest.

### SHARON RUDY – Weaving the Enneagram into High-stakes Collaboration Training: The Agony and the Ecstasy |

This session focuses on lessons and “how to’s” based on using the Enneagram in the design and implementation of multi-federal agency training in collaboration.

### GERRY FATHAUER – Sensate Awareness of Harmony |

Experience the vibration of harmony in your energy field. Access your perfection and essence through experiential practices.

### PAMELA MICHAELIS – Letting Go of Suffering, Making Room for Joy |

Attaching thoughts to emotional pain is a habit that causes and prolongs suffering. Suffering is actually a source of intelligence, energy, and spiritual nourishment. Learning to let go of thoughts and instead place loving attention accurately in the body helps to digest suffering, liberate loving energy, and gain deeper insight into what is actually needed in any situation.
